Available while supplies last

INSTRUCTIONS

STEP 1:

Clean your jar with soap and water and dry thoroughly.

STEP 2:

Pour Epsom salt onto a plate in an even layer.

STEP 3:

Spread Modge Podge in a thin layer over the front of your jar. Be aware that Modge Podge dries quickly. You may want to do a section at a time.

STEP 4:

Roll the Modge Podge in the Epsom salt to create a thin "snow" layer.

It may be helpful to build up "piles" of Epsom salt to roll in sections that need additional "snow."

STEP 5:

Sprinkle Epsom salt to fill in any gaps where more salt is needed. Let Modge Podge fully dry.

STEP 6:

Decorate your jar by adding twine around the top. Then, glue a button to the center of your bow and glue the bow to the front of your jar. Add your tea light inside.
