Free

**GRAB & GO  
CRAFT KIT**

**PATRIOTIC FABRIC  
PINWHEEL**

# DIRECTIONS

- Iron the heat 'n bond to the backside of each of the squares with the paper side up.

- Remove the paper backing and layer the squares with the right sides out.

- Use a heat or air soluble pen and draw an "X" from corner to corner.

- Draw a small circle in the middle as a cutting guide.

- Cut along the "X" up to the edge of your circle making sure not to cut the center of the pinwheel.

- If using a heat soluble pen, iron to remove the ink. Put a dot of hot glue in the center of the pinwheel square.
- Fold one point of a section towards the center and press it into the glue.
- Hold it in place.

- Take the next section and fold the same side corner towards the center and hot glue in place.

- Once your pinwheel is complete, place a dot of glue in the center and put a wooden star in the middle.

- Continue around using the same method for each section until all 4 sections have a point folded in.

- Turn the pinwheel over and glue the stick to the back
