# Floral Kissing Balls

FREE DIY KIT

# Instructions

These are also called  
"Pomander Balls"

## STEP 1

Thread your twine through two adjoining holes in the whiffle ball and tie a double knot to create a hanging loop

## STEP 3

Make a plan for how you want to lay out your florals. Consider how leaves can go in the holes in between flowers to cover gaps. It is good to have some overlap of flowers as well.

## STEP 2

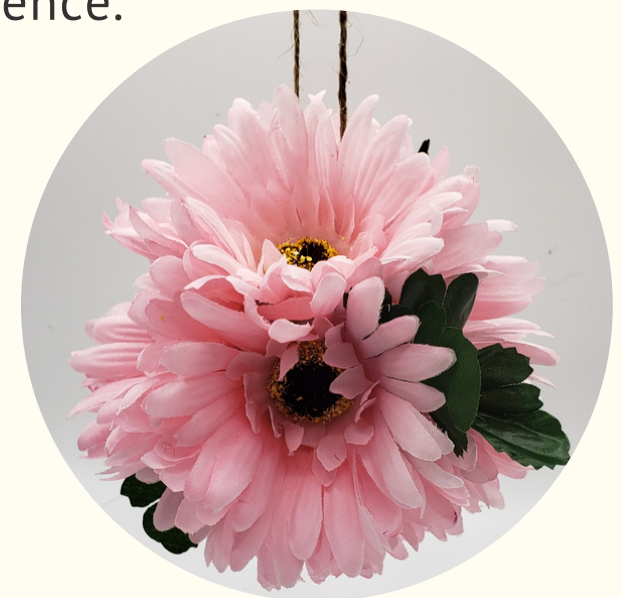

Place a dab of hot glue around a whiffle ball hole and press a faux flower head over the hole. Use leaves to fill in gaps. If you don't like a placement, just peel it off and try a different spot.

## STEP 4 CONTINUED

Cover the whiffle ball, including the holes used for the ribbon.

The number of flowers and leaves used will depend on flower size and personal preference.

Use these as home décor  
or for special occasions
