Make it Your Own!
Add embellishments for an
autumn theme or go all
Halloween.

Instructions

Step 1:

Cut five 10 1/4 inch strips of rope.

Step 2:

Turn your glass bowl upside down to make the bottom of the bowl the top of the pumpkin.

Step 3:

Place your lights inside the bowl, with the battery hanging outside.

Step 4:

Glue one end of a rope strip on the top of the glass at the 12 o'clock position.

Step 5:

Wrap the strip down, under, and back up to the top at the 6 o'clock position.

Glue down.

Step 6:

Take another piece of rope and place that one between the first ends at the 3 o'clock position, gluing the ends down as before, then ending at the 9 o'clock position.

Step 7:

Repeat for final two ropes. Rope three will have ends at the 6 and 9 positions. Rope four will have ends at the 9 and 12 positions.

Step 8:

To make the stem, add glue to the inside of the ring made by the ropes. Begin coiling the fifth rope strip on top and around into a stem shape, gluing as you go.

Step 9:

Add embellishments.
