NOVEMBER

ADULT GRAB & GO CRAFT

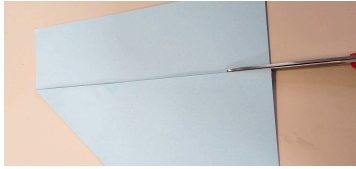

FREE DIY KIT 3D PAPER SNOWFLAKES

Instructions

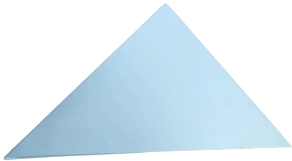

Step 1:

Fold your paper, so that it creates a triangle. Cut off the top rectangle excess paper.

Step 2:

Fold your square in half so that it makes a triangle.

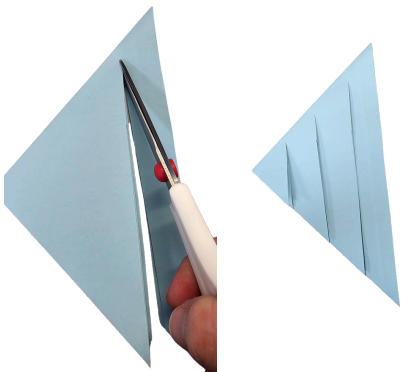

Step 3:

Fold your triangle in half again.

Step 4:

With folded paper to the left, cut three diagonal strips across your triangle. Go as far as you can without cutting into the paper fold.

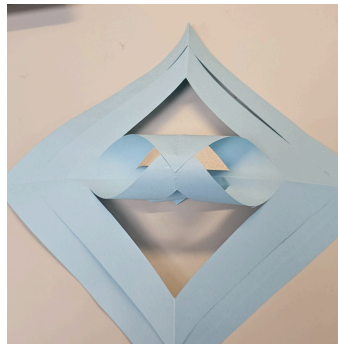

Step 5:

Open paper. Pull middle triangles together and tape.

Step 6:

Flip the triangles over. Take the second set of triangles and pull them together, taping them in the middle.

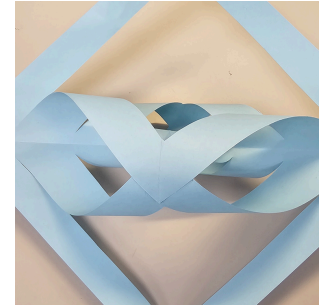

Step 7:

Repeat Step 5 for remaining triangles.

Step 8:

Repeat steps 2 through 7 five more times, until you have 6 total pieces of your snowflake.

Step 9:

Gather your snowflake pieces together in the middle and staple them, then fan the pieces out to create a large snowflake.

Step 10:

Staple the snowflake edges together using the side edges until all six are connected.
